Home Page

Overview

Here you can see all the recipes currently stored in the application, as well as filter the recipes by ingredient food groups, and add or view recipes.

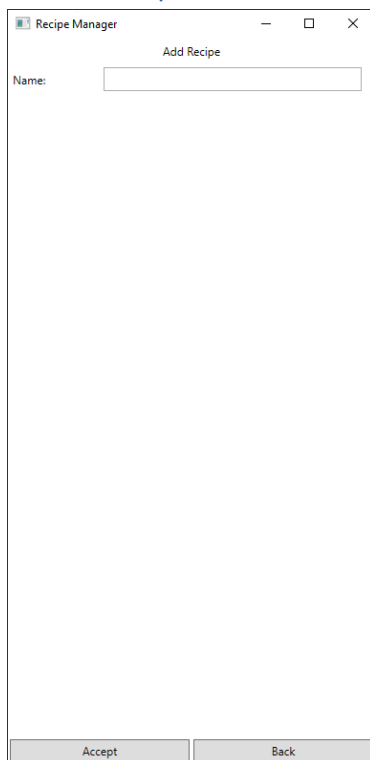

Top To Bottom

Filter Bar: here you can select which food group you would like to filter by, then pressing the "Filter" button will enable the filter. Pressing the "Clear" button will clear the current filter.

Recipe List: all the currently stored recipes will be displayed here, and must be selected here in order to view them.

Control Bar: here you can either select "Add Recipe" which will navigate you to the Add Recipe Menu or select "View Recipe" in order to view the currently selected recipe in the Recipe List.

Add Recipe Menu

The screenshot shows a window titled "Recipe Manager" with a subtitle "Add Recipe". Inside the window, there is a label "Name:" followed by a text input field. At the bottom of the window, there are two buttons: "Accept" and "Back".

Overview

Here you will enter the name of the new recipe you would like to add.

Top To Bottom

Name Input: enter the name of the new recipe here.

Control Bar: you can either select "Accept" to continue to the Edit Recipe Menu with the new named recipe or select "Back" to cancel this and return to the Home Menu.

Edit Recipe Menu

Overview

This menu allows you to add as many ingredients or steps to the recipe as you need to.

Top To Bottom

Add Ingredient Button: this will navigate you to the Add Ingredient Menu.

Add Step Button: this will navigate you to the Add Step Menu.

Control Bar: this will confirm your recipe and add it to the app with all the ingredients and steps included.

Add Ingredient Menu

The screenshot shows a window titled "Recipe Manager" with a subtitle "Add Ingredient". The window contains a form with the following fields:

- Name:
- Quantity:
- Measurement:
- Calories:
- Food Group:

At the bottom of the window, there are two buttons: "Accept" and "Back".

Overview

Here you will input all the associated information regarding the ingredient.

Top To Bottom

Name Input: this is the name of the ingredient.

Quantity Input: this is how many of said ingredient there is.

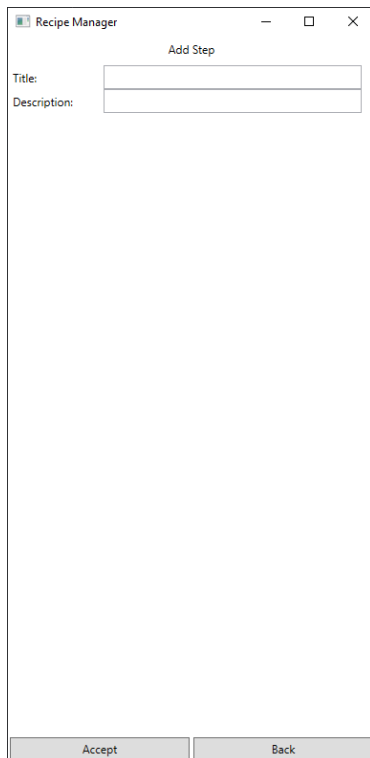

Measurement Input: select the measurement type for the quantity.

Calories Input: this is how many calories there are for this ingredient.
